

# CITY & CREATIONS

Lenzi is a company that has built its character and reputation in France and around the world through its commitment to the design, manufacture and rehabilitation of heritage lighting fixtures and furnishings, Lenzi is an heir to the history of public lighting born under Louis XIV and still makes most of the models of the «lanterns of Paris». As a holder of the «Living Heritage Company» label of excellence and attentive to the harmonious integration of its lighting fixtures into the surrounding environment, Lenzi is today embarking on a new stage in its involvement in urban lighting.

True to its values of authenticity, Lenzi presents «City & Creations,» a catalog of warm and inspiring lighting solutions. These creations, related to the history of Lenzi, meet the needs for city attractiveness and quality of life for residents. The Neo collection, the first range edited by Lenzi for «City & Creations,» echoes these aspirations.

Located in the heart of the city, in villages, historic or residential neighborhoods, squares and parks, Neo lanterns and furnishings are deployed in a multitude of modular, customizable, and high-quality solutions.

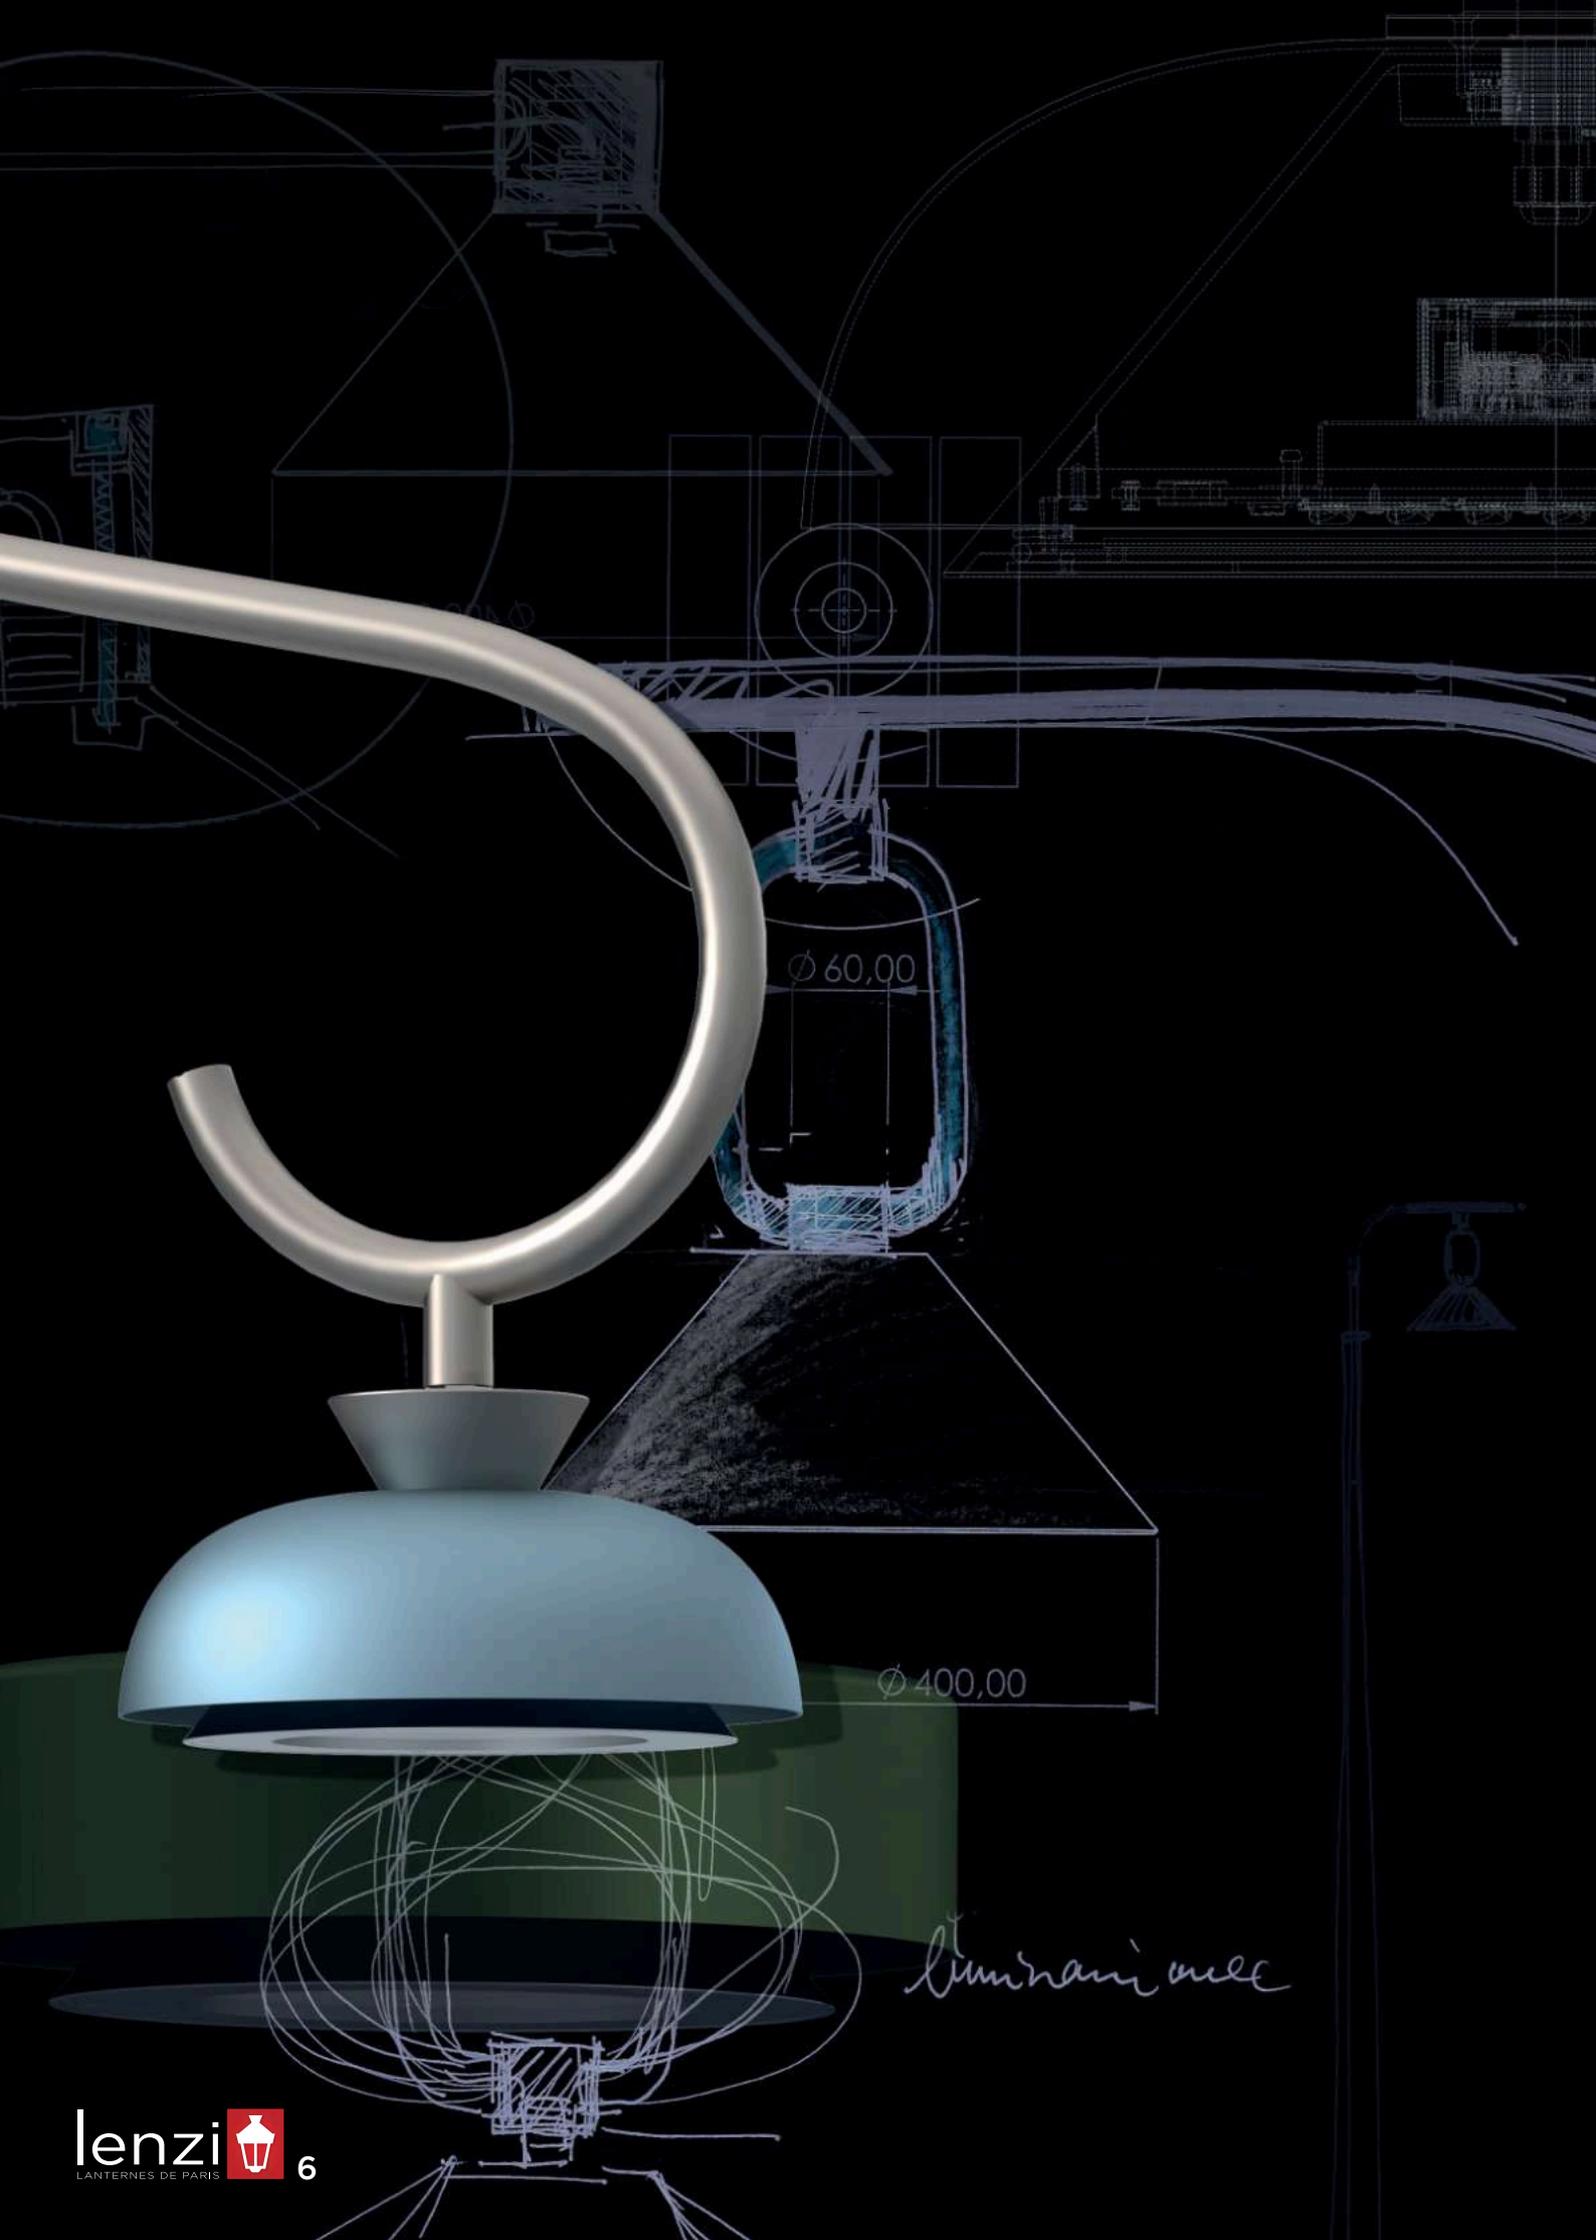

# CITY & CREATIONS

On the occasion of the launch of the Neo collection, Lenzi is attentive to specifiers and provides them with a range of innovative, creative, and technical solutions. Attentive to the particular ambitions of your design, Lenzi's teams actively participate in each stage of your project. Product recommendation, definition of specific compositions, materials, lights, colors, customization... they will advise you and help you define the ideal lighting solution.

With expertise that combines artisanal quality and industrial processes, Lenzi's technical and production teams accompany you from feasibility study to the completion of your project..

# THE **NEO** COLLECTION

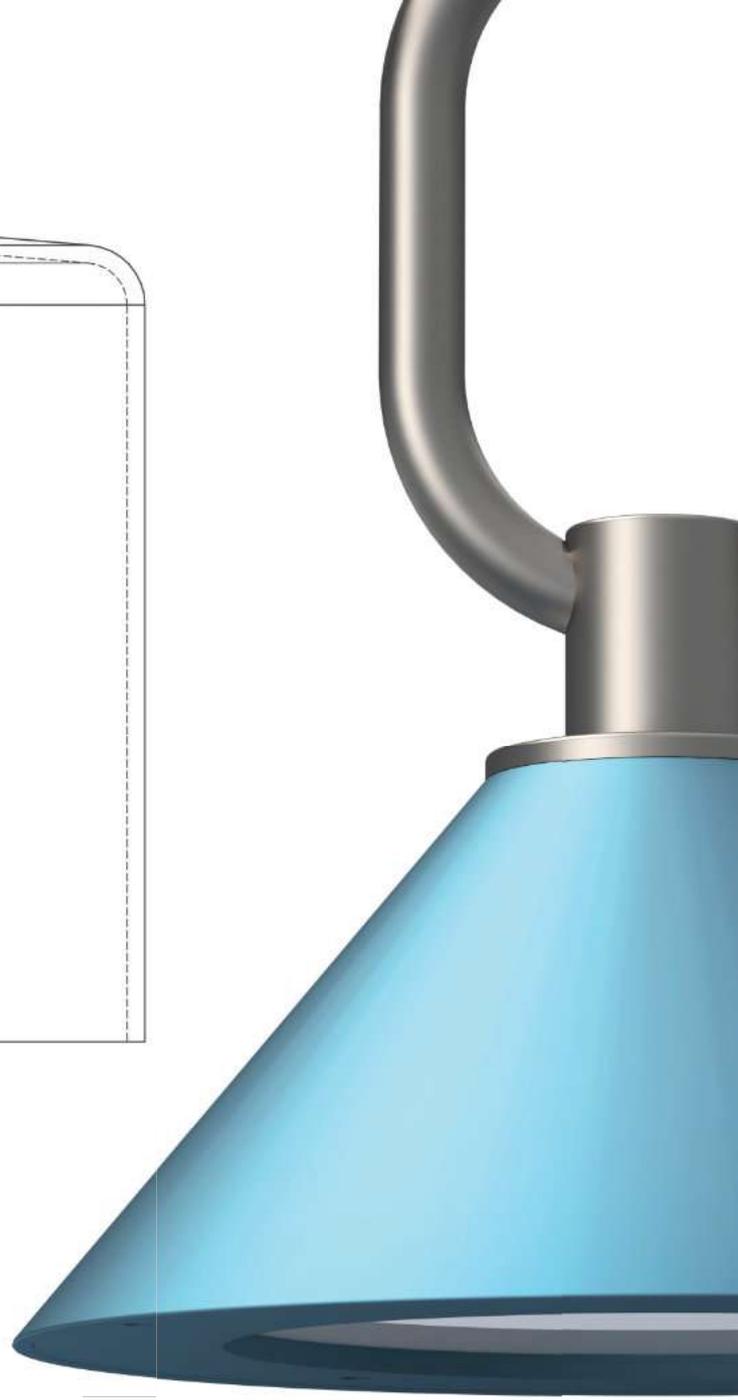

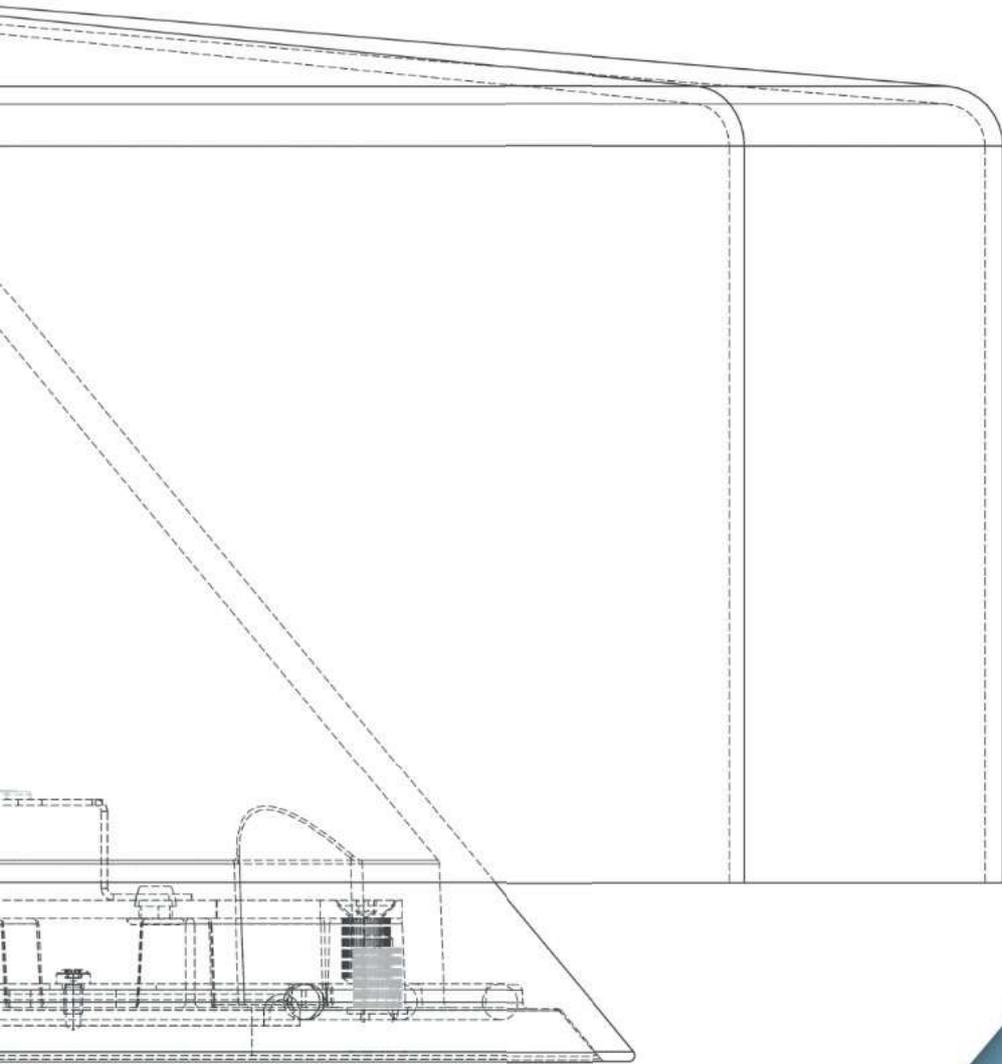

## THE CONCEPT

At the origin of this collection, there is the desire to create an innovative and current offering, in line with the values, history, and expertise of Lenzi.

A classical inspiration, redesigned and translated with a contemporary spirit... to give birth to lighting solutions and sets in line with the expectations of prescribers and city decision-makers. By articulating geometries, proportions, materials, and colors, the design approach of the Neo Collection allows a great diversity of furnishings to be offered. Complete sets, lanterns, supports; the choices are numerous, they constitute a rich offering, able to respond to the diversity of urban atmospheres and lighting applications.

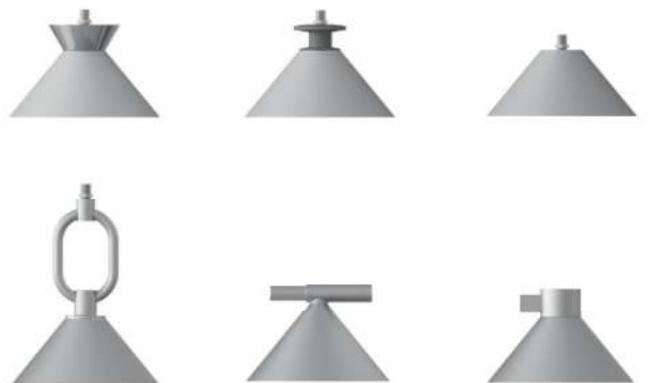

## THE **NEO** COLLECTION

### THE DESIGN

The collection's constructive principle is based on the chosen association of different elements: a conical-shaped technical module that integrates optical and electronic components, various fixtures that give the lighting solution distinct identities, domes and crowns of different shapes and dimensions, supports and brackets.

Thanks to this original system, it becomes very easy to compose a personalized piece of furniture that creates atmosphere and urban coherence.

# THE NEO COLLECTION

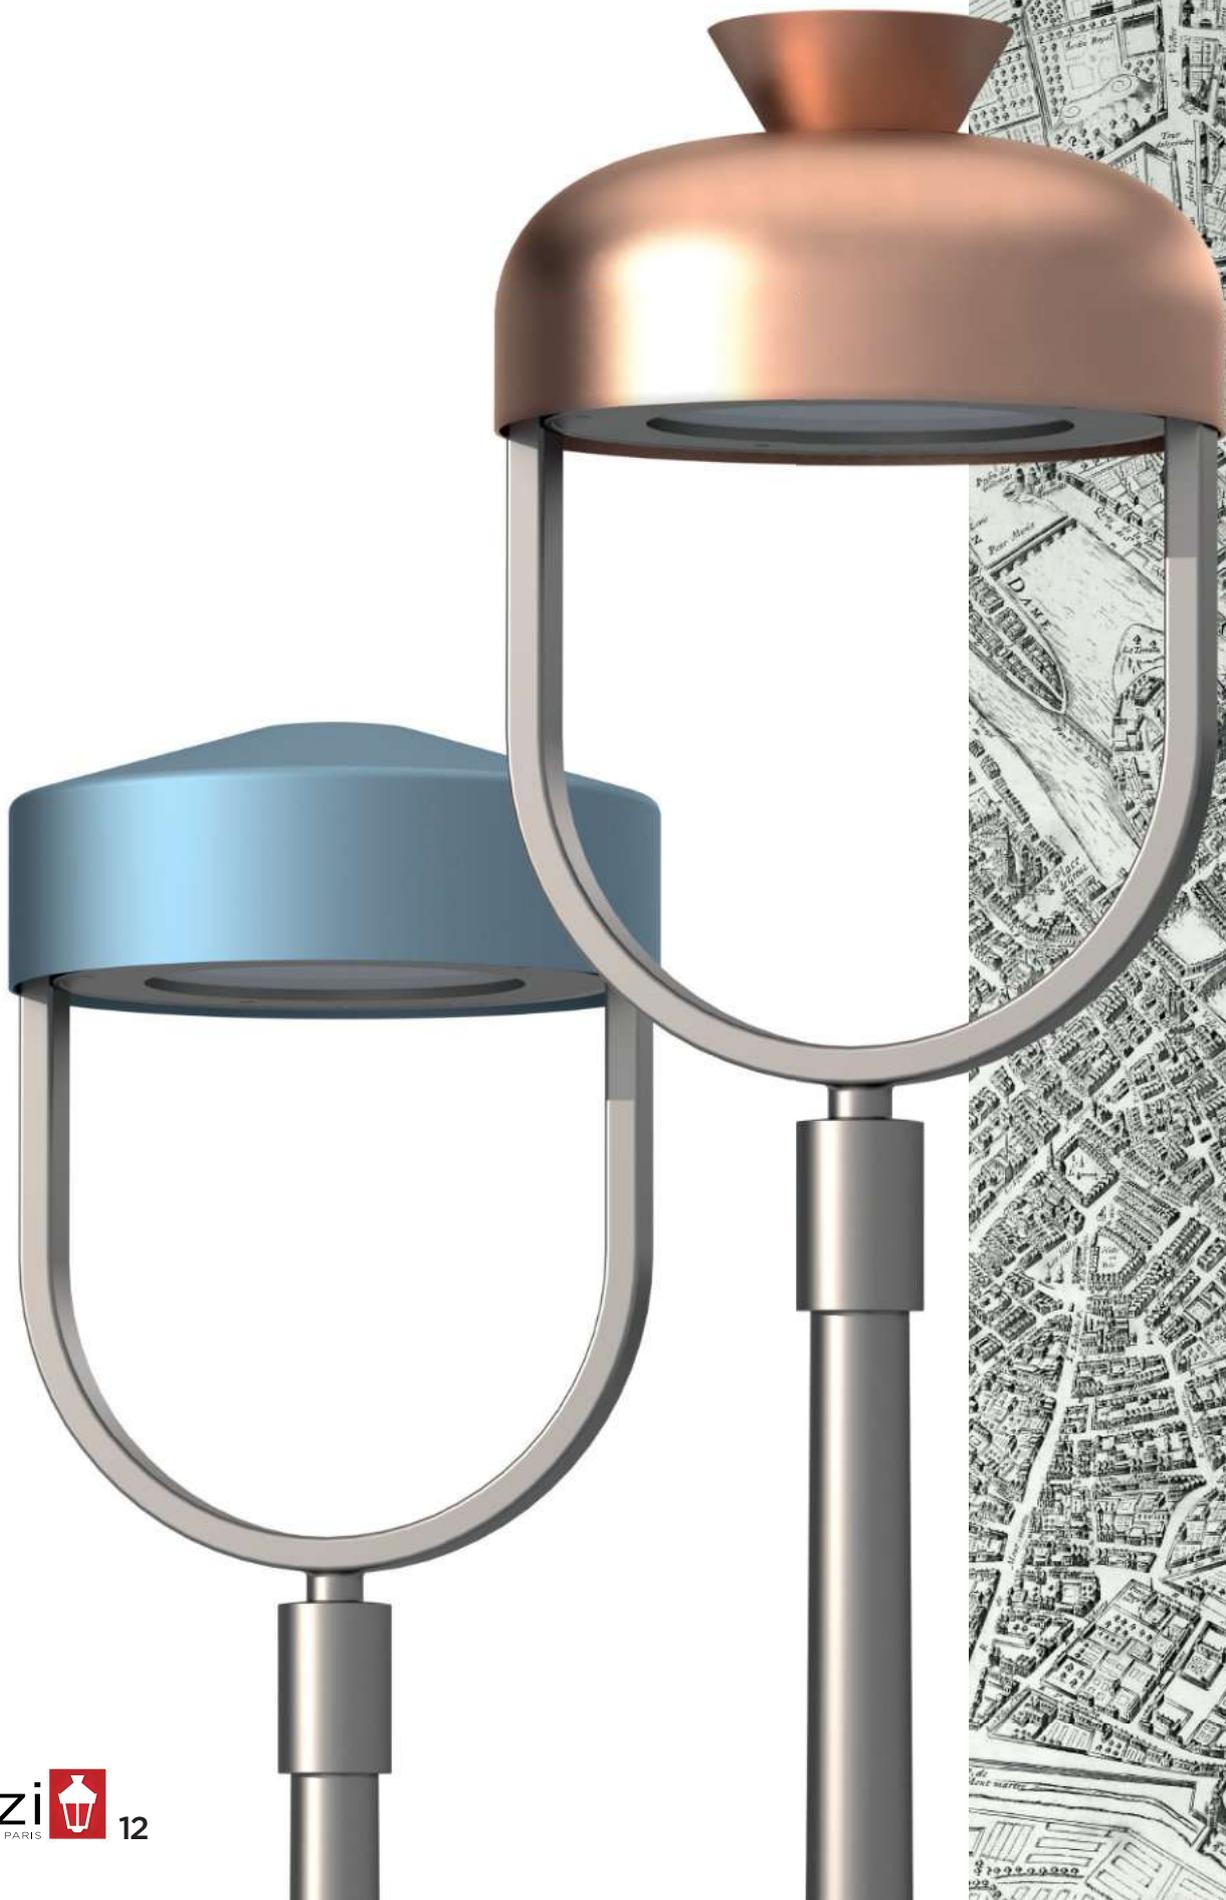

## THE LUMINAIRES

The luminaires shown below give an overview of the different versions that can be created through the following combinations: technical module-domes, technical module-crowns, technical module-specific fixtures.

Other arrangements can be created according to the intentions of the prescribers and the needs of the project (association of domes-capitals or domes-specific fixtures).

The colors and materials of the Neo Collection are presented on page 46.

# THE **NEO** COLLECTION

## SUPPORTED VERSIONS

The design principle of the Neo Collection allows for the creation of supported versions by combining a U-shaped support, the technical module, domes and crowns. These sets are fixed to the top of conical or specific poles with a diameter of 60 mm.

The colors and materials of the Neo Collection are presented on page 46.

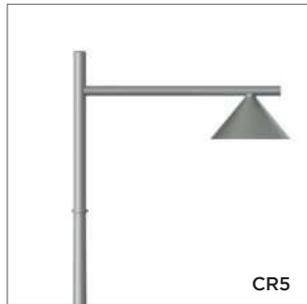

# THE **NEO** COLLECTION

## BRACKETS

In order to present coherent and harmonious sets, brackets have been developed based on the character and style of the luminaires.

These brackets are available in different versions: single bracket, double bracket, wall or pole bracket.

MTS-DAS-CH3+CR8

MTS-DAS+CR8

MTS-DAS-CH1+CR9

## **NEO** LUMINAIRE MTS-DAS-CH3+CR3

3/4"G suspended luminaire composed of the MTS technical module, the angular shaped DAS dome and the CH3 crown. The luminaire is paired with the CR3 bracket.

MTS-DRS-CH3+CR2

MTS-DRS-CH1+CR9

## **NEO** LUMINAIRE MTS-DRS+CR2

3/4"G suspended luminaire composed of the MTS technical module and the round shaped DRS dome.

The luminaire is paired with the CR2 bracket.

MTS-DSS+CR7

MTS-DSS-CH1+CR9

## **NEO** LUMINAIRE MTS-DSS+CR3

3/4" G suspended luminaire composed of the MTS technical module and the DSS dome.

The luminaire is associated with the CR3 bracket.

MTS-DPS-FXA+CR1

MTS-DPS+CR7

## **NEO** LUMINAIRE MTS-DPS-CH3+CR3

3/4" G suspended luminaire composed of the MTS technical module, the flat shaped DPS dome and the CH3 crown.  
The luminaire is paired with the CR3 bracket.

MTS-DCS+CR8

MTS-DSS+C3

## **NEO** LUMINAIRE MTS-DCS+CR8

3/4"G suspended luminaire composed of the MTS technical module, the conical shape DCS dome.

The luminaire is associated with the CR8 bracket.

MTS-CH3+CR3

MTS+CR7

## **NEO** LUMINAIRE MTS-CH1+CR3

3/4" G suspended luminaire composed of the MTS technical module and the CH1 crown.

The luminaire is associated with the CR3 bracket.

MTS-FXA+CR1

MTS-DRS-FXA+CR1

MTS-DPS-FXA+CR1

## NEO LUMINAIRE MTS-FXA+CR1

3/4" G suspended luminaire composed of the MTS technical module and the FXA fixture.

The luminaire is associated with the CR1 bracket.

MTS-DAS-FXA+CR1

MTS-FXB+CR4

MTS-DPS-FXB+CR4

## **NEO** LUMINAIRE MTS-FXB+CR4

Luminaire composed of the MTS technical module  
and the FXB fixture.

The luminaire is associated with the CR4 bracket.

MTS-FXC+CR5

MTS-FXC+CR6

MTS-FXC+CR5

## **NEO** LUMINAIRE MTS-FXC+CR6

Luminaire composed of the MTS technical module  
and the FXC fixture.

The luminaire is associated with the CR6 bracket.

MTP-DRP

MTP-DRP

## **NEO** LUMINAIRE MTP-DRP-CH3

Supported luminaire, composed of the MTP technical module, the round dome DRP, and the CH3 crown.

MTP-DAP-CH3

MTP-DAP

## **NEO** LUMINAIRE MTP-DAP-CH3

Supported luminaire, composed of the MTP technical module, the angular dome DAP, and the CH3 crown.

MTP-CH2

MTP-CH2

## **NEO** LUMINAIRE MTP-CH3

Supported luminaire, composed of the MTP technical module and the CH3 crown.

# NEO TECHNICAL INFORMATION

## NEO Luminaire

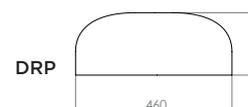

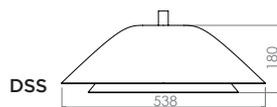

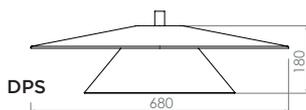

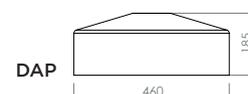

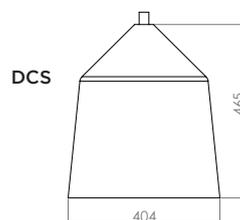

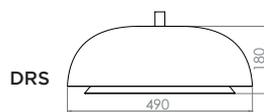

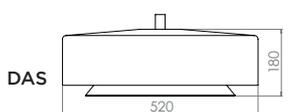

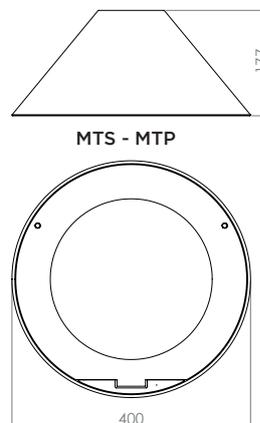

It consists of different elements that give it its uniqueness: the technical module, fixtures, domes, and crowns.

**Technical Module MTS or MTP:** Designed in injected aluminum, it integrates the optical and electronic functions of control and management. Direct access to optics and fixtures after opening the cover by two non-removable screws. The flat glass is made of polycarbonate or transparent glass. The module is equipped with a controlled breathing system.

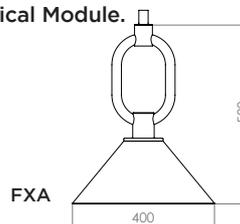

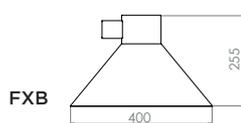

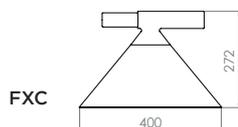

**MTS:** Suspended 3/4'G Technical Module

**MTP:** Supported Technical Module for «Lyres» models

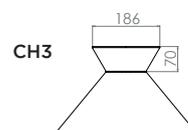

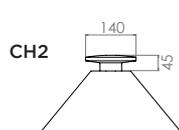

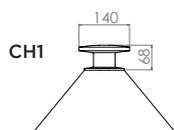

**Domes:** They are made of aluminum, copper, or brass. They are screwed on to the Technical Module.

**Specific Fixtures:** FXA, FXB, FXC; they are mounted on MTS Technical Module.

**Crowns:** CH1, CH2, CH3; they are mounted on the MTS or MTP Technical Module.

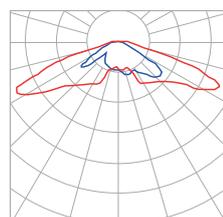

**Technical Module Seal:** IP 66

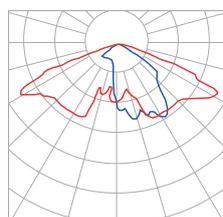

**Shock Resistance:** IK 10

**Electrical Class:** II

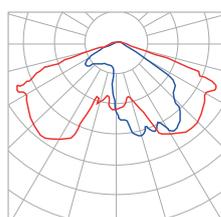

**Color Temperatures:** 2200 K, 2700 K, 3000 K, on demand 4000 K, amber.

## Brackets CR9

**Materials:** Steel  
**Finish:** Polyester Thermo-coated painting  
**Versions:** Single bracket, double bracket, wall or pole bracket.  
**Other lengths on request.**  
**Fixture:** 3/4" G Suspended fixture

## SUPPORTED VERSIONS

**Materials:** Steel  
**Finish:** Polyester Thermo-coated painting  
**Fixture:**  $\varnothing 60$  mm top pole

# NEO COLORS

On the occasion of the creation of the NEO collection, special colors and finishes were chosen to assert the contemporary character of the lights and furniture.

Shades of white, red ochre, blue, green, and grey match in pastel or more intense tones.

The finishes offered are finely textured, synonymous with an elegant and discreet presence in the urban space.

The paintings are made by polyester thermo-coating.

On request: other RAL shades.
